CENTRAL OREGON AS IT WAS MEANT TO BE SEEN.

# Bird HUNTING

1,280 ACRES OF PRISTINE COVER

Wild Winds is home to many different game birds including pheasant, chukar and quail. The surrounding wheat fields are situated perfectly to provide a habitat for all.

At Wild Winds Ranch, we specialize in affordable, old-fashioned upland bird hunts with heavy cover, high-flying birds and small town hospitality.

Simply put, Wild Winds ranch offers a hunting experience that's "front row center".

Our rustic ranch home accommodations will house you in country comfort, and our friendly hosts will be there to take care of your every need.

# Five STAND

5 Stand is a form of Sporting Clays with a wide variety of targets being thrown to simulate field shooting. There are five "stands" or stations to shoot from. Participants shoot in turn at each of the 5 stands and various combinations of targets are thrown from the traps. It provides the same types of target presentations without the walk. Shooters can move from station to station with a predetermined menu of shots and combinations, or in a sequence unknown to the shooters.

Each squad of 5 Stand shooters will have a guide who will explain and throw the targets for you via remote control and ensure your comfort and safety.

Enjoy fun activities for the young and old as you shoot skeet with friends and our qualified instructors.
